

PreciTaste AI Welcome Center

The AI Welcome Center, a check-in kiosk built for the demands and speed of food businesses, is the best way to **keep your staff, your customers, and your food business safer**. The system also integrates seamlessly with your existing QSR Brain products!

The AI Welcome Center is the easiest, most efficient way to reduce health risks and liability, minimizing chances of and impact from exposure, and the easiest way to comply with federal, state, and local laws and guidelines. The AI Welcome Center is **completely self-serve** and requires **no complicated setup, management, or maintenance** – all you need to do is plug it into an outlet.¹

Functionality

The AI Welcome Center provides:

- Automated sensing of a user's **temperature**² and whether the user is **wearing a mask**
- Touchless **health survey** in English and Spanish (additional languages available upon request)
- **Contact tracing** to track who was potentially exposed if an incident is reported
- **Automated reporting** on survey responses and measurement results

Extension modules, including tracking the **number of people in the lobby, access control, and pick-up check-in** for delivery drivers or take out customers, are also available.

Pricing and Availability

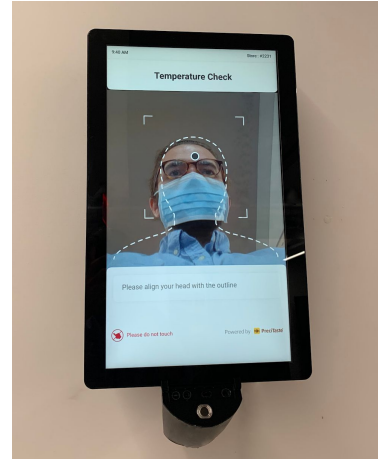

Contact us for more information. No supply chain constraints. Ships Q2 2020. Most commonly required screening questions, data formats, and reporting available out of the box; additional functionality extra.
